

portalondemand

The tailored portal for channel partners

portalondemand

Why our clients love this tool for managing their partnerships:

Ease of use

Vendors can easily create, edit and move any pages on the partner portal with no technical or coding support.

Flexibility

You can use this platform to share/upload a wide range of resources on a global or local scale.

Targeted to users

Partners will only see the pages, assets, and tools that relate to their partner tier, partner type, territory, language, etc.

Integration

The portal can integrate with other platforms (CRM, PRM, etc.) to provide a single view to all partner tools.

Engaged users

The reporting capabilities allow you to continually track how engaged each user/ partner is and which resource receives the most clicks.

Our clients use portalondemand to:

- ✓ Recruit and on-board partners
- ✓ Provide sales execution
- ✓ Provide marketing support
- ✓ Improve communications and engagement
- ✓ Provide Account Managers visibility

Plus, much more...

With Tremolo's **portalondemand** you have the flexibility to provide your partners with a tailored platform which will increase engagement and optimise your channel productivity.

The Outcome

Happy engaged partners, who are in tune with your brand!

Enable partners to easily find
the assets and tools they require and
conduct business with you,
via **portalondemand**.

Simply call Tremolo on **+44 (0) 20 3540 6585**, or email us
